## NAHPCA flowchart - round 2

Created on 11/05/18 Updated on 11/06/18

Student/customer:

Customer purchases
Online Course

Registers

Shoppingcart

Live Course

Fills out custom fields at checkout: username, name, email, title, license # and license state. These fields are for CEU certificate. We can create these fields via CSS so they won't be overwritten upon updating.

Takes → Takes Quiz #1 (study questions)

Problem #1: We need student to take quiz #1 (really study questions and answers) before quiz #2 (final exam) but there's no way to set this condition in LP b/c there are only "quizzes".

Question #1: Can we send admin/client an email notification when students complete quiz #2? Student gets a certificate preferably electronically. There is a certificate extension in LP.

Takes quiz #2

(final exam)

Students who complete "What You Need to Know" course. These are the only students who get invited to become member b/c the course is required for membership:

Question #3: Can we make all products / classes go into one system to make managing easier: profile, orders, etc?

Student

completes above

flow chart

After student finishes final exam, they are sent to an invite page to become

Student signs in b/c they already registered.

Note #1: Each mer type will

a member.

Question #2: Can we

also send email to invite

them to become a

member? Only to "What

Each membership type will be a different product in WC and will display different set of fields to fill out depending on type. These fields give us contact info to add member to directory (just a static page on website). At checkout: student fills
out more registration
fields based on
membership type:
Student, Affiliate,
Professional. (See
membership forms on

current site under Join: <a href="https://www.nahpca.com/join/">https://www.nahpca.com/join/</a>.)

Student gets an email to renew registration at 3 mos, 1 mo, 1 day (length TBD if we set this up)

> Note #2: We can do this by setting up cron job / custom function. Is there an easier way? This takes 10 -12 hours.
